Passionate about the teaching profession, at the service of school and teaching, Cecilia Condei has spent over four decades in all education systems: elementary, pre-university, postgraduate, young people with special needs. Beginning in a school in the 1970s (Cotu-Vameș General School, Neamț County), continuing in rural schools in Oltenia (Mârșani, Teasc and Secui general schools), the teaching activity was carried on for a long time at the Pedagogical High School Craiova, which later became the Normal School, then Ștefan Velovan College. The last 20 years of her teaching career were spent at the University of Craiova, where Cecilia Condei focused on the following topics: linguistics, especially textual linguistics and the analysis of the discourse of foreign Francophone writers. By 2016, the scientific activity included more than 140 publications (books, studies, articles,

of which 119 were published during the university period, focusing on the topics of the aforementioned research areas). She has participated in 40 national and 28 international colloquia and research seminars (Belgium, France, Canada, Tunisia, Algeria, Croatia, Serbia, Hungary, Republic of Moldova, Spain) with personal contributions or as a chair person. She was member of 15 scientific committees of scientific manifestations abroad and of 24 scientific events in Romania. Among the 12 books as single author, the latest are *(Re)configurations discursives. Articulations textuelles*, 2015, Éditions Modulaires Européennes, Cortil-Wodon, Fernelmont, Belgium, *Composants pragmatiques et textuels du discours (non)littéraire*, 2013, Universitaria, Craiova, *Éléments de linguistique pour l'analyse discursivo-textuelle*, Universitaria, Craiova, focusing on literary discourse issues. This activity was rewarded with the ARPF Excellence Award in 2013. The academic activity within the higher education system included numerous projects for students and with the students, research and research co-ordination projects (M level, master), being a director in five international projects and a member in three others. The results of projects involving the students were disseminated in four volumes of scientific papers published in Romania and countless studies of young researchers published in academic journals abroad. Recent doctoral projects are mainly oriented towards discursive heterogeneity, identity issues, ethos, editorial enunciation, para-textual aspects of discourse inscriptions.
